Hello!

I love creating content that captivates people and makes them laugh. As Senior Video Producer at Circa Laughs I worked with David Zucker (Airplane!) I led ambitious projects on tight deadlines, and I've since created work for Taco Bell, Subway, Cracked.com, Letgo, and Wall of Entertainment with Joivan Wade (Doom Patrol). I also did VFX work on the Sony movie, Terrordactyl, about a bunch of Pterodactyl's from space.

With over ten years experience in Premiere, After Effects, Photoshop, Directing, Writing, Design, and Animation—I have the organizational chops to keep complex projects polished and on time. I currently direct a weekly live music show that reaches over eight thousand weekly viewers.

I take ideas and bring them to life, I love working on an idea from a small thought on paper to a fully realized piece of art. My creativity and organization help me to dream up new concepts, lead teams and guide the project from start to finish. I'm a strong communicator who has the skills to hop through complex production processes and lead projects that run smoothly from conception to the final edit.

I'm excited to bring my mix of imagination, leadership and practical know-how to your team, thanks for taking the time to read this!

Sincerely,  
Ryan Drane
